

Greetings from your 2019 World Jamboree Food Team!

We are pleased to share the Troop Cookbook and Troop Food Market grocery lists for the 2019 World Jamboree. Information for Gluten-Sensitive, Nut-Sensitive, Kosher, and Halal specific meals will be posted in April at <http://jamboreefoodteam.org/2019-catering-info/>

There are some very specific assumptions we made that influenced these suggested options:

- Troops are free to plan their meals based on anything available in their Troop Food Market. Normally with any food service project, some sort of menu becomes the starting point. Because the troops may choose their own meals every time at this World Jamboree these menus are therefore only suggestions. We did include preparation instructions for breakfasts and dinners like a cookbook.
- We are striving to package many of our items to serve a group of 20. This will give Troops a chance to more easily manage situations when there is a split in the Troop regarding what meal items to prepare. The final item list (to be distributed in May 2019) will indicate specific size and estimated serving counts for each item, as well as the point value of each item.
- All meat and egg products are precooked except for pre-scrambled eggs in a carton. This helps us stay safe from many food-born illnesses and makes meal prep easier and faster, so Troops can enjoy more activities.
- All lunch suggestions are non-refrigerated, highly portable, single-serving items that the Troop members assemble into a lunch each morning to carry with them. The Summit site is large and going back to camp to cook a lunch will severely limit your Troop's activities. With some days being quite warm, we are also guarding against consuming heat-spoiled lunches.
- Cooking oil is NOT on the list, but canola oil spray is. Our waste-water system in the Troop sites at the Summit is not designed to be able to process the quantities of cooking oil required for most deep-fried food.
- We will post the commercial ingredient labels of all items several weeks in advance of the Jamboree, so families can review them for their specific dietary concerns, especially allergies.

There is a great video showing how the Troop Food Market process works at <http://wsj2019.us/2017/12/12/cooking-preview/>

Cooking spray

Instructions

1. Read all instructions twice before starting. Keep perishable food in your cooler. Add ice if you will not prepare the meal right away.
2. Wash your hands and all work areas before starting. If you've been sick recently, do not prepare food.
3. Place at least one inch of water in steam table pan. Note: That is enough water to cover the bottom, but not enough to cause the top tray to float. Place second steam table pan on top and spray it with cooking spray. Then put hamburgers "shingled out" in pan. (In other words, lay the items in the pan, overlapping slightly, like shingles on a roof). This arrangement allows you to warm all the hamburgers at once, overlapping as necessary to fit in the pan. Cover and place on medium heat and turn hamburgers often. **DO NOT USE YOUR STEAM PAN WITHOUT WATER!**
4. Slice lettuce, tomatoes and onions.
5. Set serving tables with table cover, hamburger buns, cheese slices, onion, condiments, potato salad and Rice Krispy treats.
6. Mix the flavored drink mix in the beverage cooler, following the directions on the package. Stir until all the mix is dissolved. Dispense several cups and pour back into the cooler to mix completely. Replace lid.
7. Bring burgers to serving table when they are ready.
8. Remind everyone to wash their hands.
9. Bless the meal in your own tradition.
10. After dinner, clean up and dispose of waste properly.
